BROWN TECHNICAL SERVICES LLC
KNOWLEDGE ENGINEERING | AGENTIC AI | ESTABLISHED 2001

EXECUTIVE SUMMARY

Brown Technical Services LLC is a premier Knowledge Engineering firm with a 25-year legacy of delivering technical documentation and systems design. We specialize in 'Active Knowledge' - transforming static institutional data into autonomous AI agents using Google Gemini 3.0. We serve both Government agencies requiring rigorous compliance and Small Businesses seeking enterprise-grade AI efficiency.

CORE COMPETENCIES

1. Cognitive Engineering & Digital Twins

Digitizing legacy documentation and engineering long-context data architectures for Google Gemini 1.5/3.0 Pro, enabling AI to reason across entire institutional histories without hallucinations.

2. Agentic Workflow Automation

Deployment of autonomous agents for RFI/RFQ response automation, technical auditing, and self-updating SOPs that synchronize with real-time operational changes.

3. Adaptive Training & LMS Enablement

Instructional design and AI-driven training systems that personalize curriculum based on employee performance data, integrated with robust LMS administration.

DIFFERENTIATORS

- 25 Years of Proven Stability: Established 2001, providing long-term reliability.
- Gemini-Native Architecture: Expertise in Google Vertex AI and Gemini long-context windows.
- Truth-Grounding Methodology: Ensuring AI accuracy through proprietary knowledge layering.
- Lean Enterprise Scalability: Enterprise-level rigor tailored for small to mid-market budgets.

COMPANY DATA

NAICS Codes: 541512, 541611, 513210, 611420

Identity: Michigan LLC | Established 2001 | SBE

Location: Gibraltar, Michigan (National Service Area)
